

NEW JOURNAL

MATERIALS PHYSICS AND MECHANICS

Commencing publication with the March 2000 issue, the new journal "Materials Physics and Mechanics" specializes in the rapid publication of international conference proceedings in every area of materials physics and mechanics. This permits such proceedings to be conveniently referenced, abstracted and read. All contributions are peer-reviewed, edited by the corresponding guest editor(s) and they may not be published elsewhere. The journal will cover research activities in physics and mechanics of the traditional as well as the newly emerging materials.

The journal "Materials Physics and Mechanics" is published in both paper and electronic versions.
