SCIENTIFIC COMMITTEE AND EDITORIAL BOARD

- **D. A. Indeitsev** (*Co-Chairman*), IPME RAS, Peter the Great St. Petersburg Polytechnic University, Russia
- **A. M. Krivtsov** (*Co-Chairman*), Peter the Great St. Petersburg Polytechnic University, IPME RAS, Russia
- **P. A. Dyatlova** (*Scientific Secretary*), Peter the Great St. Petersburg Polytechnic University, IPME RAS, Russia
- **O. S. Loboda**, Peter the Great St. Petersburg Polytechnic University, IPME RAS, Russia
- **H. Altenbach**, Otto-von-Guericke University Magdeburg, Germany
- **V. A. Babeshko**, Southern Scientific Center RAS, Rostov-on-Don, Russia
- **A. K. Belyaev**, IPME RAS, St. Petersburg, Russia
- **I. E. Berinskii**, Tel Aviv University, Israel
- **I. I. Blekhnman**, IPME RAS, Mekhanobr-tekhnika Corp., St. Petersburg, Russia
- **A. A. Burenin**, Institute of Metallurgy and Mechanical Engineering Far-Eastern Branch RAS, Komsomolsk-na-Amure, Russia
- **A. V. Cherkaev**, University of Utah, Salt Lake City, USA
- **V. A. Eremeyev**, Rzeszow University of Technology, Poland
- **A. B. Freidin**, IPME RAS, Peter the Great St. Petersburg Polytechnic University, Russia
- **S. N. Gavrilov**, IPME RAS, St. Petersburg, Russia
- **R. V. Goldstein**, Institute for Problems in Mechanics RAS, Moscow, Russia
- **I. G. Goryacheva**, Institute for Problems in Mechanics RAS, Moscow, Russia
- **E. F. Grekova**, IPME RAS, St. Petersburg, Russia; University of Seville, Spain
- **N. Gupta**, Indian Institute of Technology, Delhi, India
- **H. Irschik**, Johannes Kepler University of Linz, Austria
- **M. L. Kachanov**, Tufts University, Medford, USA
- **B. L. Karihaloo**, Cardiff University, UK
- **V. A. Levin**, M. V. Lomonosov Moscow State University, Russia
- **A. M. Linkov**, IPME RAS, St. Petersburg, Russia; Rzeszow University of Technology, Poland
- **I. I. Lipatov**, Moscow Institute of Physics and Technology, Russia
- **E. V. Lomakin**, M. V. Lomonosov Moscow State University, Russia
- **A. V. Manzhairov**, Institute for Problems in Mechanics RAS, Moscow, Russia
- **G. A. Maugin**, Pierre and Marie Curie University, Paris, France
- **A. V. Metrikine**, Delft University of Technology, The Netherlands
- **G. Mishuris**, Aberystwyth University, UK
- **N. F. Morozov**, St. Petersburg State University, IPME RAS, Russia
- **W. H. Müller**, Technical University of Berlin, Germany
- **U. Nackenhorst**, Leibniz University of Hanover, Germany
- **V. A. Palmov**, Peter the Great St. Petersburg Polytechnic University, IPME RAS, Russia
- **E. Pavlovskaya**, University of Aberdeen, UK
- **Y. V. Petrov**, St. Petersburg State University, IPME RAS, Russia
- **M. B. Rubin**, Israel Institute of Technology, Haifa, Israel
- **A. I. Rudskoy**, Peter the Great St. Petersburg Polytechnic University, Russia
- **S. H. Sargsyan**, Gyumri State Pedagogical Institute, Armenia
- **E. N. Vilchevskaya**, Peter the Great St. Petersburg Polytechnic University, IPME RAS, Russia
- **M. Wiercigroch**, University of Aberdeen, UK
- **M. V. Zakrzhevsky**, Institute of Mechanics, Riga Technical University, Latvia

PREFACE

Dear Reader,

in this book you will find the Proceedings of the Summer School – Conference “Advanced Problems in Mechanics (APM) 2017”. The conference had been started in 1971. The first Summer School was organized by Prof. Ya.G. Panovko and his colleagues. In the early years the main focus of the School was on nonlinear oscillations of mechanical systems with a finite number of degrees of freedom. Since 1994 the Institute for Problems in Mechanical Engineering of the Russian Academy of Sciences organizes the Summer School. The traditional name of “Summer School” has been kept, but the topics covered by the School have been much widened, and the School has been transformed into an international conference. Now it is held under the patronage of the Russian Academy of Sciences. The topics of the conference cover now almost all fields of mechanics, being concentrated around the following main scientific directions:

- aerospace mechanics;
- computational mechanics;
- dynamics of rigid bodies and multibody dynamics;
- fluid and gas;
- mechanical and civil engineering applications;
- mechanics of media with microstructure;
- mechanics of granular media;
- nanomechanics;
- nonlinear dynamics, chaos and vibration;
- molecular and particle dynamics;
- phase transitions;
- solids and structures;
- wave motion.

The Summer School – Conference has two main purposes: to gather specialists from different branches of mechanics to provide a platform for cross-fertilization of ideas, and to give the young scientists a possibility to learn from their colleagues and to present their work. Thus the Scientific Committee encouraged the participation of young researchers, and did its best to gather at the conference leading scientists belonging to various scientific schools of the world.

We believe that the significance of Mechanics as of fundamental and applied science should much increase in the eyes of the world scientific community, and we hope that APM conference makes its contribution into this process.

The Conference is organized by Institute for Problems in Mechanical Engineering of Russian Academy of Sciences (IPME RAS) and Peter the Great St.Petersburg Polytechnic University (SPbPU) under the patronage of Russian Academy of Sciences (RAS), St.Petersburg Scientific Center, Ministry of Education and Science of Russian Federation (project indentificator RFMEFI 60715X0120) and the University of Seville (Universidad de Sevilla). APM 2017 is partially supported by Russian Foundation for Basic Research. Minisymposium in memoriam of Antonio Castellanos Mata is partially sponsored by the Vicerrectorado de Investigacion de la Universidad de Sevilla (Vice-Rectorate for Research, University of Seville, Spain).

We hope that you will find the materials of the conference interesting, and we cordially invite you to participate in the coming APM conferences. You may find the information on the future “Advanced Problems in Mechanics” Schools – Conferences at our website:

<http://apm-conf.spb.ru>

With kind regards,

Co-Chairmen of APM 2017

Dmitri A. Indeitsev, Anton M. Krivtsov

Contents

- M. Abobaker, A. M. Krivtsov, A. Murachev.* **Dynamics of Grav-
itating System of Gas and Dust Cloud** 11
- E. L. Aero*, *A. N. Bulygin, Yu. V. Pavlov.* **The solutions of non-
linear equations of flat deformation of the crystal media
allowing martensitic transformations** 21
- A.R. Arutyunyan, R.A. Arutyunyan.* **Formulation Of Rheology-
cal Equations Of The Elastic-Viscous Plastic Medium Tak-
ing Into Account The Current Value Of The Lateral Deform-
ation** 31
- R.A. Arutyunyan.* **Formulation And Experimental Justifica-
tion Of The Long-Term Strength Criterion** 37
- Aslanyan N.S., Sargsyan S.H.* **Thermoelasticity of micropolar
thin plates** 44
- V.A. Babeshko, O.V. Evdokimova, O.M. Babeshko, A.G. Fedorenko,
V.V. Lozovoi, S.B. Uafa.* **Hidden defects in covers of materials,
faults in seismology and prevention of hazards** 58
- A.I. Baltov, A.Ya. Yanakieva.* **Numerical modelling of surface
– reinforced rod tube structures** 69
- N.V. Banichuk, S.Yu. Ivanova.* **Mechanics of penetration and
structural protection in the frame of optimization game the-
ory** 77
- E.Y. Belova.* **Stability assessment of a tibia fracture fixation
in the case of thermal stresses** 83
- A.V. Blank, V.V. Kapranov, R.V. Mikhailov, N.A. Suhareva,
V.Yu. Tugaenko.* **Experimental study of stochastic processes
for adaptive tilt correction of the signal beam at a long
atmospheric path** 90
